Patt

Thanks for sorting me out this yesterday, I'm still feeling much better today, great.

I believe the following represents my belief in the actual value of your therapy and would be happy if you wished to use it as a testimonial:

Patt has successfully relieved the pains I have had both in my lower back and my knee. Before treatment pain has significantly restricted movement and caused much discomfort, but after an hour of gentle therapy there is a refreshingly feeling of reviving flexibility and reduction in pain. I always walk away feeling substantially better. I know if I have a movement related pain or problem Patt will know how to ease it and for this I am very grateful. I do recommend Patt and her skill in Bowen Therapy to others.

all the best
