

A testimonial to Pat Stock from [Name] [Address] [City] [Postcode]

Some weeks ago I suffered a sprained ligament in my knee. It hurt a lot but I thought that given time it would get better on its own.

It didn't, in fact it got worse. So I asked Pat to help.

I was late for my appointment as I couldn't walk properly from the car park, but Pat forgave me for that.

I undertook two Bowen sessions with Pat one week apart and they marked the turning point of my recovery. Pat dealt with me with professionalism, with sympathy and with care. She demonstrated a thorough knowledge of her subject, and my body and how it worked or in this case didn't work properly.

I urge any or all of you to go to Pat with your aches and pains you might be pleasantly surprised at the outcome.

Thank you Pat
